

YOUR SMART BUSINESS PARTNER

CCTV

This modern CCTV camera system provides robust security with high-definition and 4K video quality for clear, detailed footage. Equipped with infrared night vision, it ensures continuous surveillance 24/7. The system's advanced motion detection sends instant alerts to your phone or email, and remote access allows you to view live and recorded footage from anywhere in the world.

- **High-Definition Video Quality:** This modern CCTV camera captures video in high-definition (HD) or even 4K resolution. This ensures that the footage is clear and detailed enough to easily identify faces, license plates, and other critical information.
- **Night Vision:** It is equipped with infrared (IR) LEDs, CCTV cameras can record clear video in complete darkness. This feature provides continuous surveillance and security 24 hours a day, regardless of lighting conditions.
- **Motion Detection and Alerts:** It contains advanced CCTV systems can detect movement within their field of view. When motion is detected, the system can automatically start recording and send instant alerts to your smartphone or email, allowing you to react quickly to potential security threats.
- **Remote Access and Mobile Viewing:** This allows you to view live and recorded video footage from anywhere in the world using a smartphone, tablet, or computer. This feature gives you the flexibility to monitor your property remotely and check in on things at any time.
- **Weatherproof and Vandal-Resistant Design:** This CCTV camera is built with durable housing that is rated to withstand harsh weather conditions, such as rain, snow, and extreme temperatures. Their vandal-resistant design also protects them from physical tampering, ensuring they remain operational and secure.
