SB – AV1 Electronic Hanging Scale

This electronic crane scale is built for durability and precision, featuring a 300kg capacity with 100g accuracy and the ability to handle overloads up to 150%. Housed in a rugged PPA body with an integrated load cell, it provides clear readings on a 1.5-inch red LED display.

Features and Capabilities

- **High Capacity and Accuracy:** This is an electronic crane scale with a 300kg capacity and an accuracy of 100g. It can handle an overload of up to 150% for safety.
- **Durable Design:** The scale features a strong PPA (polyphthalamide) housing and a hanging hook design. It is built with an integrated load cell for rugged, reliable use.
- **User-Friendly Display:** It has a large and bright 1.5-inch red LED display for clear readings. The display is on the body of the scale.
- **Convenient Functions:** Key functions include ON/OFF, HOLD, TARE, and ZERO. It also has an adjustable gravity value to eliminate the need for frequent re-calibration.
- **Connectivity:** Features an inbuilt Bluetooth module for wireless communication.
- **Power and Communication:** The scale is powered by a rechargeable battery that provides over 24 hours of use.
- **Safety and Efficiency:** The device includes a low power indicator and an auto power-off function to save battery. It measures automatically.
- **Certifications:** CE Approved and Kenya Weights and Measures Type Approved, ensuring compliance with both international and national standards.
- **Anti-Tampering Protection:** Dotmobi Anti-Tampering Device can be added to prevent tampering.
