SWELL V710 upgraded to SWELL V760 Personal Digital Assistant

This durable device is built to last, featuring a MIL-STD-810G shockproof rating and an IP68 waterproof rating. Powered by an octa-core MediaTek CPU with 8GB RAM and 128GB of expandable storage, it runs on Android 13. The device boasts a 6.3-inch FHD display and a high-resolution camera system, with an optional 48MP upgrade. It offers comprehensive connectivity, including 4G LTE, dual-band Wi-Fi, Bluetooth 5.0, NFC, and multi-system GPS for reliable navigation.

Features and Capabilities

- **Shockproof:** The Device is built to withstand tough conditions, it meets the MIL-STD-810G standard, meaning it can survive multiple drops from up to 1.5 meters (5 feet) on all six sides. This makes it highly durable against accidental drops and impacts.
- **Waterproof:** With an **IP68** rating, this device is completely protected from dust and can be submerged in water for an extended period without damage, ensuring reliable performance in wet or dusty environments.
- **Processor:** The device is equipped with a powerful **MTK6789 Octa-core CPU**, featuring two high-performance **A76** cores at 2.0GHz and six power-efficient **A55** cores at 2.0GHz. This combination provides a balance of speed for demanding tasks and efficiency for everyday use.
- **Operating System:** It runs on the latest **Android 13** operating system, offering a smooth, secure, and intuitive user experience with access to all the newest features and applications.
- **Memory:** It comes with **8GB of RAM (DDR)** and **128GB of internal storage (Flash)**, providing ample space for files and ensuring fast multitasking and quick app loading.
- **Wireless:** It supports a wide range of **Wi-Fi** standards (**IEEE 802.11 a/b/g/n/ac/d/h/i/r/k/v/w/mc**) and dual-band connectivity (2.4GHz/5GHz) for fast and reliable internet access. It also features **Bluetooth 5.0** for seamless connection to other devices.
- **4G LTE:** Provides extensive **4G LTE** band support, including **FDD** and **TDD** bands, ensuring broad cellular connectivity across various networks worldwide.
- **Battery:** A large **3.8V 5000mAh battery** provides long-lasting power, allowing the device to operate for extended periods on a single charge.
- **NFC:** Includes **NXP 557 NFC** technology at 13.56MHz, enabling convenient features like contactless payments and easy pairing with compatible devices.
